

Fuel Battery Program

Fuel Medical Group is proud to offer high quality, mercury-free batteries from Power One. Our members can enjoy the reliability of top-tier materials, a sturdy design and a higher capacity than standard mercury batteries, which translates to a longer shelf life and satisfied patients.

We offer 2 options for battery purchasing, standard and Private Label. Standard batteries are available for \$0.25 per cell (\$15.00 per carton of 60 cells). For information on Private Label Battery branding with your company logo and contact information, refer to page 3.

How to order standard batteries:

Visit www.fuelmedical.com

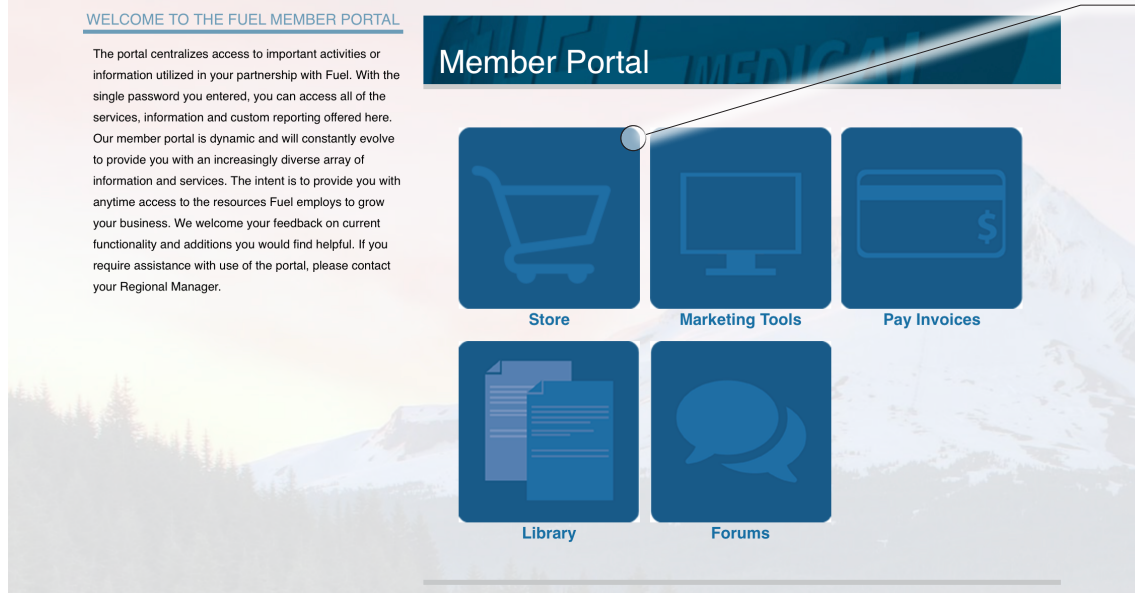

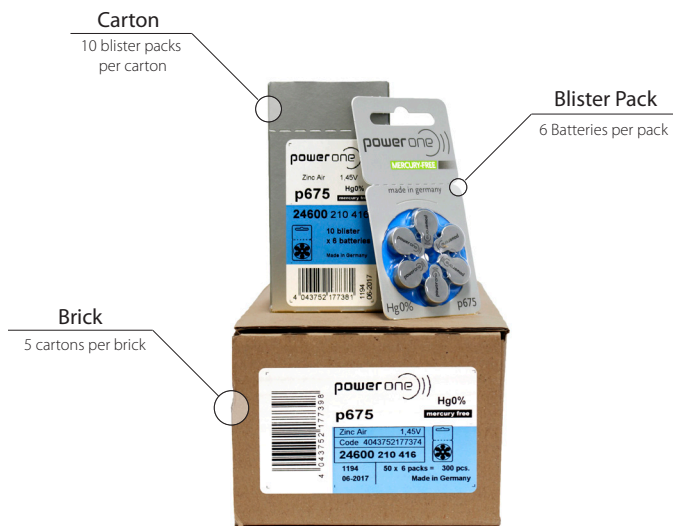

Click into the menu and select **Member Portal** and log in using a designated Username and Password.

If a login is needed, please contact your Regional Manager for Username and Password assistance.

Select "Store" to be routed to the Bulk Batteries section.

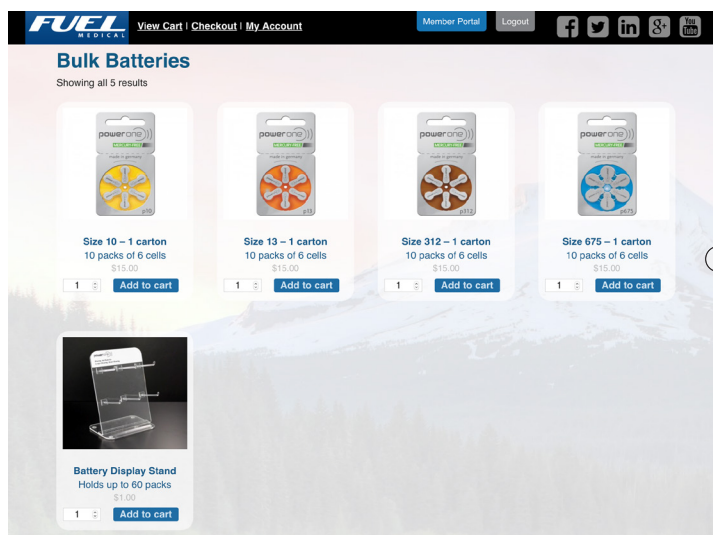

Batteries are referenced in two parts; carton and brick.

A carton (shown here in gray) contains 10 blister packs of 6 battery cells each, for a total of 60 batteries per carton.

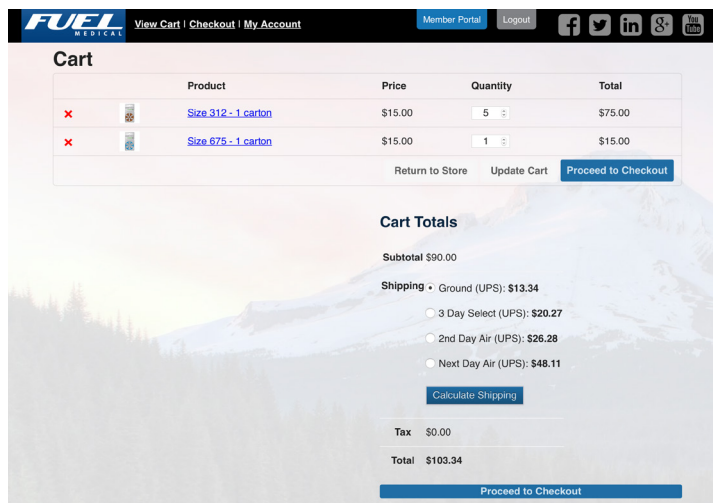

A brick (shown here in tan) contains 5 cartons (gray) of batteries, for a total of 300 battery cells per brick.

Choose the size and quantity of batteries to add to your cart.

Each size will need to be added to the cart separately to ensure accuracy.

We do ask that a minimum purchase of 5 cartons (equal to 1 brick) be purchased in a single transaction for shipping purposes.

Shipping costs are automatically calculated based on the shipping address within your account. Expedited shipping is available.

Have multiple locations?

No problem.

Go to "My Account" to add an additional Shipping Address and Click Save.

When finished click "Proceed to Checkout"

Purchase with confidence

Fuel Medical Group provides secure credit card processing and accepts Visa, MasterCard and American Express. If alternative payment options are needed please contact your Regional Manager to make those arrangements.

Occasionally, products may be on backorder. We will keep you updated along the way with automated emails and tracking information.

Fuel Private Label Battery Program

Our Private Label battery program is ideal for offices that order a high volume of batteries. Keep your services top-of-mind with your patients by adding your logo and contact information to the battery packaging. These are the same high-quality, Mercury-free batteries we sell in our webstore, with the added benefit of being personalized to your practice.

Quantity and Pricing

- Minimum Order: 100 cartons
- Cost:
 - » 100-499 cartons: \$16.50 per carton (\$0.275 per cell)
 - » 500+ cartons: \$15.00 per carton (\$0.25 per cell)
- Multiple location drop shipping available.

Print Specs

Private label battery packaging uses a pre-approved design and several options for logo placement and content, with a live sleeve print area of 1.625' by 0.875. Choose one ink color (for both package and display) from Black, Red, Green or Blue.

Logo must be submitted in Photoshop (.eps) or Adobe Illustrator (.ai) files. Images embedded in Word files, PowerPoint files, .pdf files, etc. are not accepted.

Conclusion and Next Steps

A color proof of the design will be sent for final approval.

Once final approval of the design has been made, orders placed take 5-7 days for drop shipment. Orders can be a combination of any size and quantity to total a minimum of 500 cartons priced at \$16.50 per carton (\$0.275 per cell)
